Commitment for Health.

Entwined with Virtues of Trust, Quality and Care.

One of the leading PCD Pharma companies of India, Spica Lab takes pride in its world-class infrastructure and ultra-modern equipment range that conforms to international standards. Spica Lab's phenomenal success in the manufacture and distribution of high-quality medicines with zero side effects is raised on the pillars of a strong sense of patient needs and pathbreaking research.

Spica Lab boasts of a dedicated team of research professionals with distinctive niches and training in the field. Together with the enterprising efforts of our founders Mr Ravi Agarwal and Mr Prabhat Agarwal, our motivated staff members at Spica Lab strive to promulgate quality and

innovation in the form of high-grade, effective remedies for all kinds of diseases, whether acute or chronic.

Spica Lab's wide acclaim throughout the country owes to the zeal of its staff members for continuous developments, supreme standards and quality, as well as its focus on affordability. Our ever-expanding presence in the domain relies on our commitment to health, entwined with uncompromisable virtues of trust, quality and care

Mission

Patients First

Spica Lab firmly believes in its goal of catering to the diverse and evolving needs of patients, through advanced research and technological support. We are striving to create an ecosystem of quality yet affordable medicines that resonate with patient needs and accessibility.

Vision

A Disease-Free World

Though people might consider it a long way still, Spica Lab believes that the ultimate goal of a disease-free world would begin small. This is what drives us to manufacture international standard medicines at highly affordable rates that are not just effective against remedies but also accessible by the masses.

Quality and Trust Effective Communication

At the fore of Spica Lab's work is the promise of assured quality and international standards, throughout all our products, which helps patients build seamless trust in our company.

Effective Communication

Our focus on safe, high - quality patient care and wide - ranging research initiatives are based on the pillars of effective communications, professionalism and respect.

Innovation and Change

Our practice of valuing knowledge and supporting innovation has empowered several organisations, franchisers, and even freshers to further innovate meaningfully for the betterment of the sector.

What we do ?

Spica Lab is the leading manufacturer in India and the world of tablets, capsules, liquid syrups, dry syrups, injections, herbal and ophthalmic products. Our wide range of products boasts of

GMP Certified Pharmaceutical Distributor and Franchise

A renowned name in the pharma sector in India, Spica Lab dwells on the promise of scientific processes and international standards when it comes to delivering products and services for patients suffering from various diseases. Our pharmaceutical chain is one of the most trusted and widely circulated in the country, and our focus on quality has earned us the GMP certification as well. Spica Lab believes in the power of unity, and consistently partners with various distributors, franchises and PCD franchises for the promotion and circulation of our wide-ranging products.

Fastest Growing Pharma Company in India

Spica Lab is an integrated franchise (PCD) Pharmaceutical Company, and one of the leading names when it comes to the pharma sector in the country. With more than 350 different products, Spica Lab boasts of the largest range of products by any company in India. Our significant presence in brands across various therapeutic segments, from cough and cold to life-threatening acute diseases speaks of our wide-ranging expertise. No wonder, Spica Lab is India's fastest growing pharma company with a robust plan already in place for expansion into new avenues.

HEALTHCARE SEGMENT

You'll Love the Way We Care for You.

A global leader when it comes to high-quality medicines for all, CU-Card Lifecare offers more than 150+ cardiac and diabetic products on board for all kinds of problems faced by diabetes and heart patients.

At CU-Card Lifecare, we understand how fragile and significant human life is, and how it needs special attention and care when suffering from a disease. This is why our cardiac and diabetes unit puts together years of expertise and experience in presenting high-quality products for the treatment and assistance of people with heart and diabetic conditions.

CU-Card Lifecare has managed to build an international reputation when it comes to quality, affordable healthcare in the niche segments, catering to end-to-end products for issues of all kinds. Our team of researchers are constantly upbeat with the latest developments and innovations in the field, besides staying abreast with the needs of patients suffering from such diseases. As such, we have a dedicated team of medical professionals, research & development units and motivated staff members working towards the cause of manufacturing and distributing affordable and reliable medicines to all. We are constantly striving towards our goal of better health outcomes for patients and improved operational efficiency through this venture.

Over the past few years, CU-Card Lifecare has been deploying advanced technology to provide accurate data analysis and, therefore, optimum outcomes through research for developing the best quality medicines for all kinds of cardiac and diabetic concerns.

Promoting the Focus on Female Strength and Good Health

The unique physical and physiological make of the female body calls for dedicated medical attention and healthcare at every stage of life. Women are prone to various disorders, especially when it comes to reproductive health, which demands expert medical care.

CU Card Gyno Care promotes a culture of dedication and discussion on female healthcare, something the society has been ignoring and hushing for long. Our wide range of products for female reproductive issues such as amenorrhoea, menorrhagia, tumours, cysts, blockage of Fallopian tube, and common disorders such as osteoporosis, anaemia, weakness and lethargy assure that women can maintain a superior quality of life and handle each role and responsibility efficiently.

At CU Card Gyno Care, we enthusiastically promote and nurture the culture of healthy women for a healthy society. Dedicated teams of professionals monitor the various stages of production, analysis and warehousing while keeping all processes aligned to our various considerations. Each formulation is sampled and tested systematically to ensure the best quality and outcomes. CU Card Gyno Care strives to deliver not just medicinal value and health to the women of today, but also a sense of liberty and participation to make them feel more confident and healthier

Boosting Mental Health through Quality Medicines

Often ignored but equally important, mental health is significant for every individual in the world today, no matter their age, background and lifestyle. This is why Spica Lab has dedicated an entire segment specifically to neurology and psychiatric medicines.

Engaged in GMP-WHO manufacturing, supply and distribution, CU Card Psycocare is a leading Neuro PCD Franchise in the country known for superior quality and effective neuro drugs. We have a team of highly qualified and experienced professionals who deploy advanced technology for the formulation of new drugs with the best outcomes for patients with varying needs.

Our promise of affordable healthcare for all reflects in our myriad products and formulations, which are not just wide-ranging but also much more affordable than their international counterparts. We aim at providing comprehensive solutions to long-ignored mental health problems such as anxiety disorder, psychotic disorder, obsessive-compulsive disorder, depression, schizophrenia, and so on. Focussing on our commitment to high-end satisfaction and world-class medication at pocket-friendly prices, CU Card Psycocare has been expanding its presence and preference in the national and international market for all humanity

OPHTHALMOLOGY SEGMENT

Design to Heal.

One of the most delicate organs of the human body that is also susceptible to some of the most irritable concerns is the eye. Windows the world, our eyes help us visualise life and colour, perceive and send out expressions. The sensitivity and exposure of the eyes, however, leads to them often turning at the receiving end of disorders, problems and disease.

CU Card Ophtho Care is aligned with the vision of SPICA Lab to provide affordable, wide-ranging healthcare to all. Our Ophtho Care segment works specifically towards treatments and medicines for eye problems such as pain and inflammation, bacterial conjunctivitis, intraoperative miosis, cataract and ulcers. Our high-quality products ensure not just speedy recovery but also an instant reduction in discomfort and inflammation.

Our expert team of researchers and medical professionals are all ears when it comes to understanding what patients want. Our promise of insightful eye care is based on this very principle, and we ensure timely eye care and rehabilitation on the same lines. Our stronghold in the ophthalmic segment relies on our long history of quality service and a range of innovative products based on market demand.

SKINCARE SEGMENT

Clinically Tested Skin Care and Cosmetic Products

Attending to superior quality dermatological healthcare, CU Card's Skincare segment aims to revolutionize the field of skincare through innovative, sustainable and healthier products that help fight various skin problems. Our impressive range of more than 150 skincare products are widely appreciated and used throughout the country, and continue to expand based on popular demand.

CU Card Skincare immensely promotes the culture of WHO-GMP throughout the vertical, and believes in the power of superior quality medicines in alleviating both common and chronic skin concerns. Our expert team of professionals, researchers and staff members are charged with the motivation to provide high-quality alternatives to patients seeking improved skin health.

Committed to purity, professionalism and quality, CU Card Skincare's product line deals with skin ageing, acne care, infections, therapies, and more. With a long history of manufacturing and distribution of superior medicinal products in the country, Spica Lab's skincare segment lives up to the expectations of dermatological solutions of the future with the help of state-of-the-art research, consistent monitoring and optimisation, as well as guaranteeing the highest safety standards.

NEPHROLOGY SEGMENT

Creating a Bright Future for Renal Patients

Undergoing dialysis can turn a patient's life upside down, with a variety of related issues and bodily challenges. This is why Spica Lab is dedicated to the provision of high-quality medicinal products and support to renal patients in a bid to help them recover faster to their normal lifestyle.

Our wide-ranging products are at par with international standards when it comes to supporting and enhancing services for renal patient care. We foster a close and transparent cooperation between nephrologists, hospitals, general practitioners, medical care suppliers, patients and researchers when it comes to developing an innovative nephro-care product that lives up to the patient's expectations and requirements.

Aside from local demands for holistic renal solutions, we also take into account standardised processes of renal care systems for our entire value chain and patient network. At the core of our services lies the motivation to induce positivity and speedy recovery that can play a key role in patient empowerment, affecting eventually their behaviour, emotional and physical well-being and satisfaction. All our products are developed on these lines, and therefore bring quality, trust and innovation to the table.

CU CARD 
DENTO CARE

DENTOLOGY SEGMENT

Superior and Affordable Oral Health Solutions.

People often tend to ignore medicinal and professional support when it comes to oral health. Maintaining healthy teeth, gums and tongue are the keys to getting rid of several oral problems, including bad breath, dry mouth, canker or cold sores, tooth decays and cavities, along with TMD or thrush.

CU Card Dento Care is a niche segment of Spica Lab that deals specifically with products for improved oral healthcare. Our products are based on the simple agenda of providing individuals with their best smiles! From toothpaste to mouthwashes and gum paints, we also provide mouth ulcer gels for the more chronic issues. Our multi-speciality and comprehensive suite of products and services for the dental health segment assures patients both reliability and affordability in one, through a personalised dental experience.

CU Card Dento Care complies with the highest international standards and best practices when it comes to product development. Our team of expert dentists and patient-centric researchers are focused on coming up with the most innovative and optimised formulations for improved outcomes. These values are the real pillars of our growing strength and expansion in the segment.
